Student Expenses Analytics

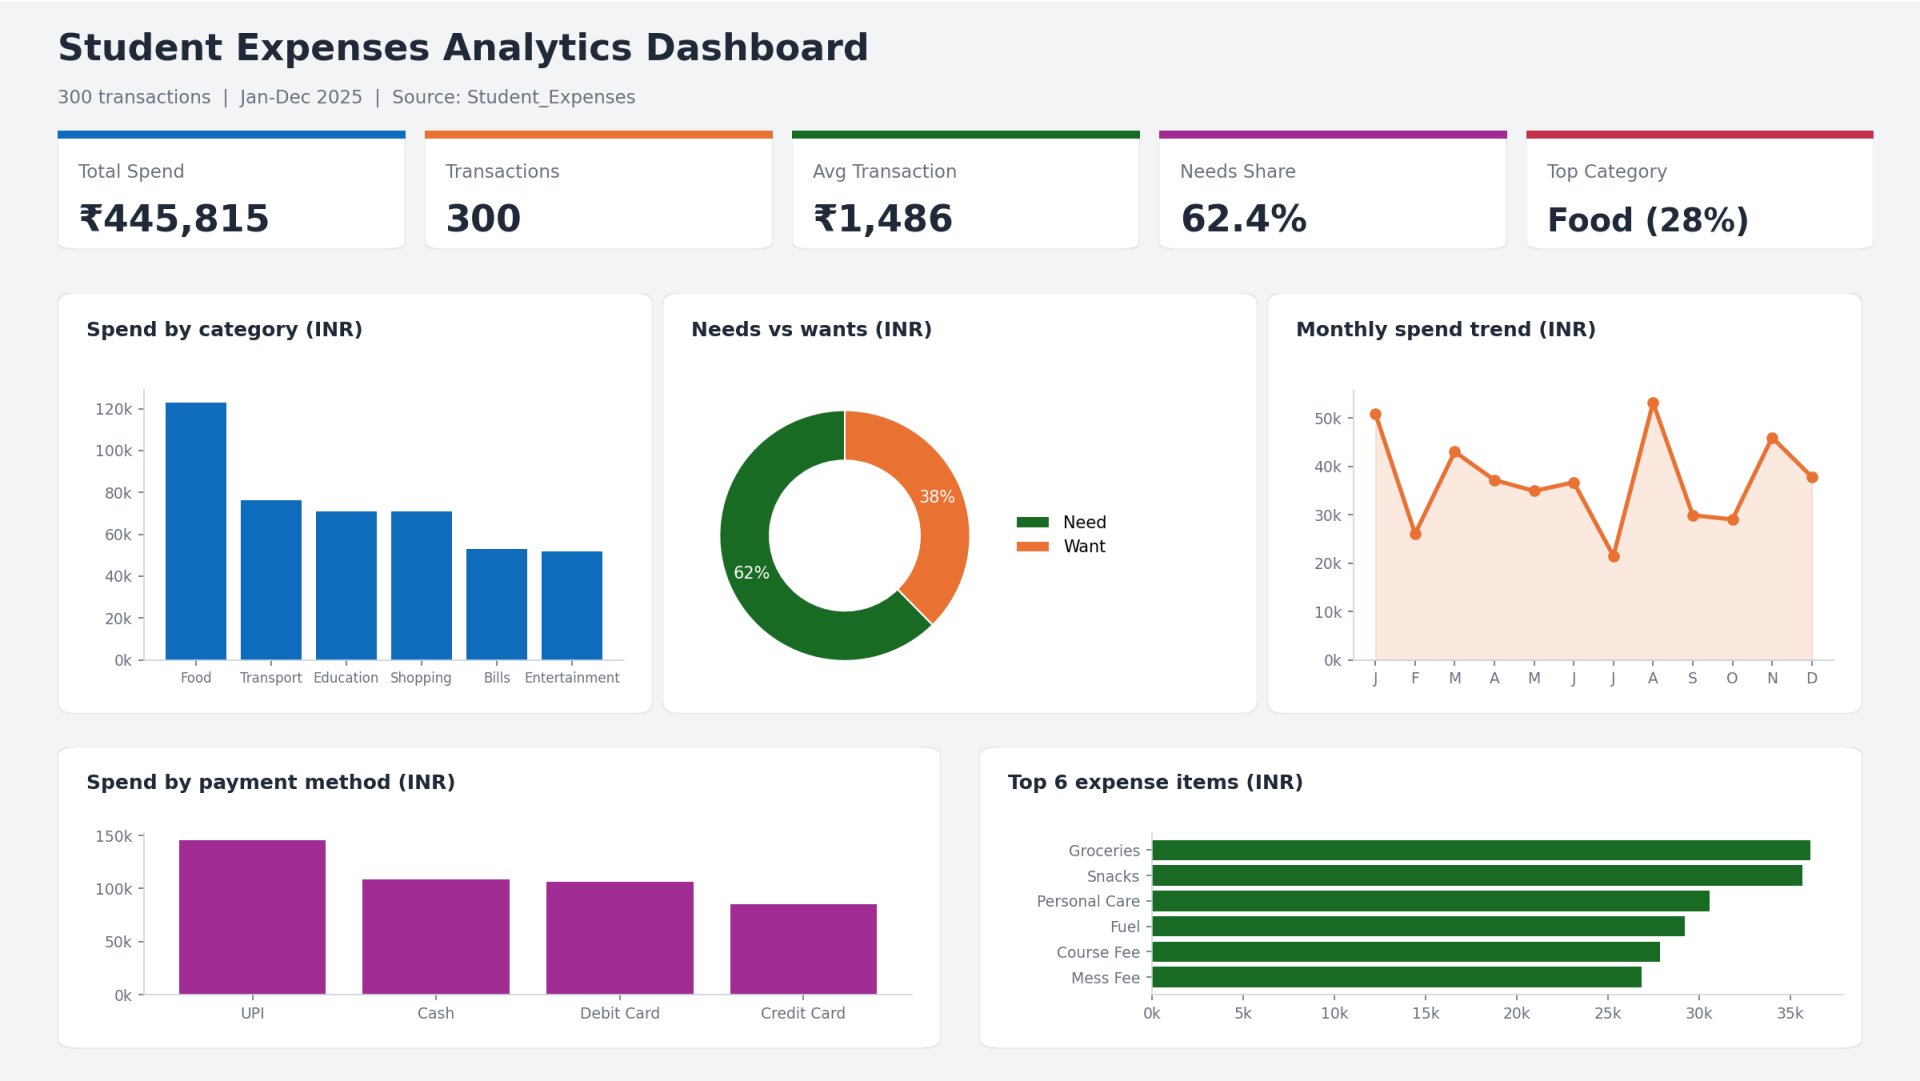

Where the money goes: 300 transactions, January–December 2025

₹4.46 lakh spent across 300 transactions

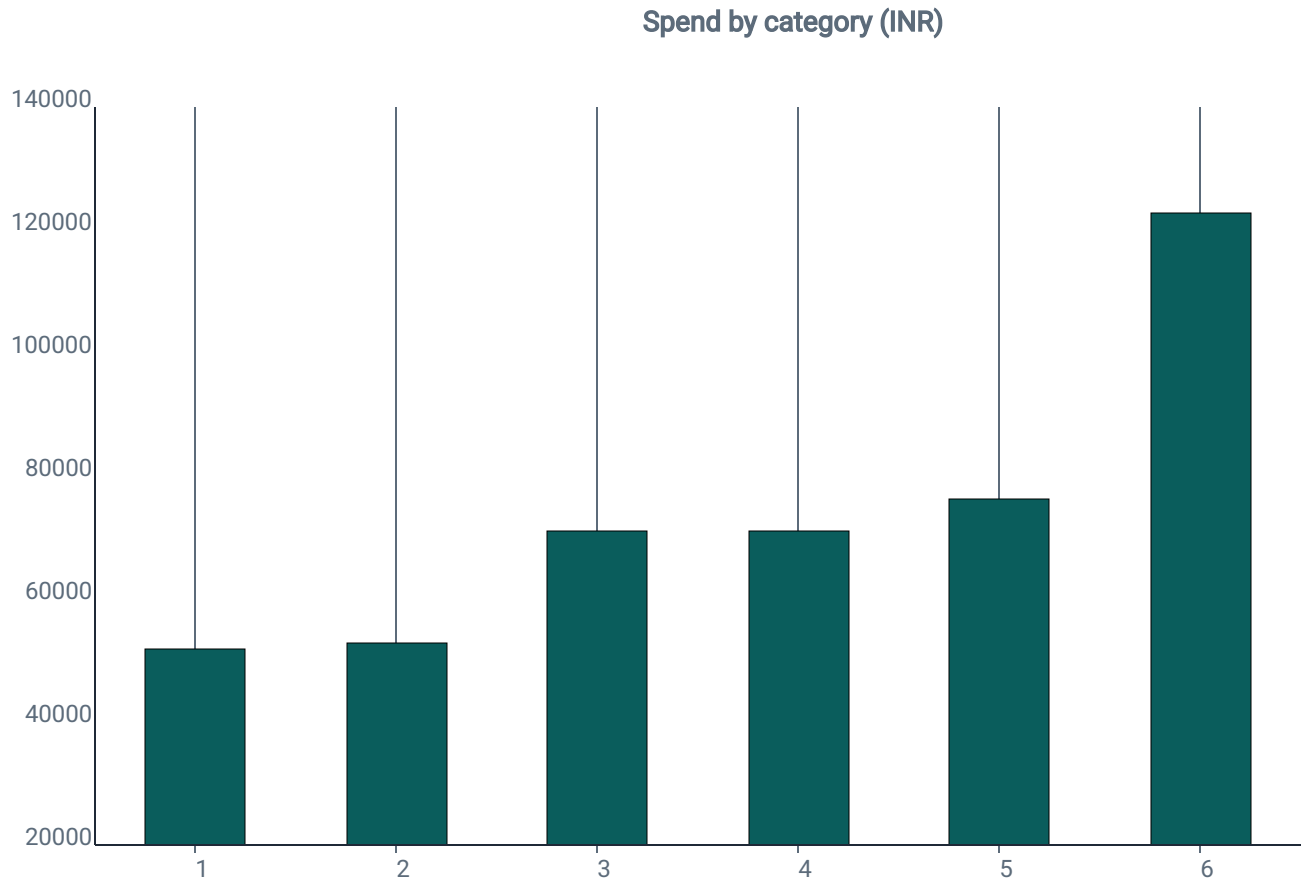

₹445,815	300	₹1,486	62.4%	Food
Total spend	Transactions	Average transaction	Share spent on needs	Top category (27.6%)

Spending averages about ₹37,000 a month. Individual transactions range from ₹51 to ₹2,991, so a few large payments move the totals more than the many small ones.

The dashboard at a glance

Food leads; three categories drive 61%

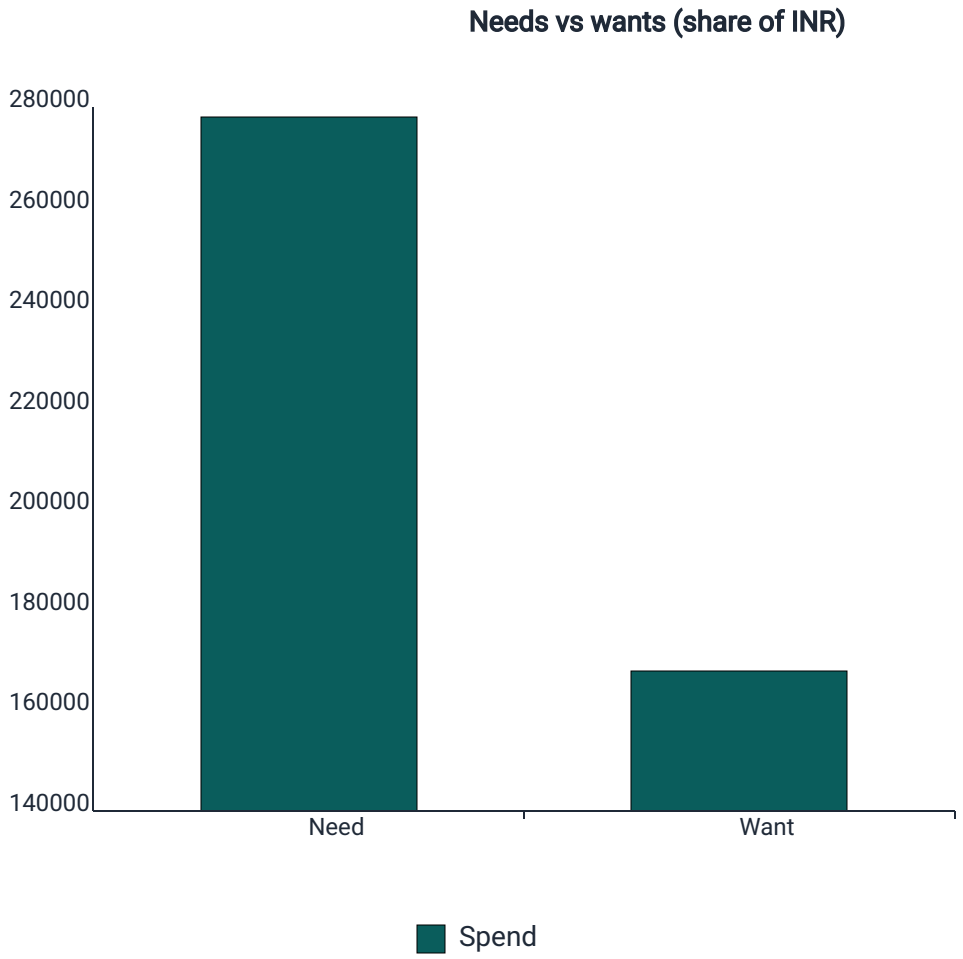

27.6%

of all spend goes to Food (₹122,911)

60.6%

comes from the top three: Food, Transport and Education

Needs make up 62% of spending

₹278,062

needs (62.4%), against ₹167,753 on wants (37.6%)

72%

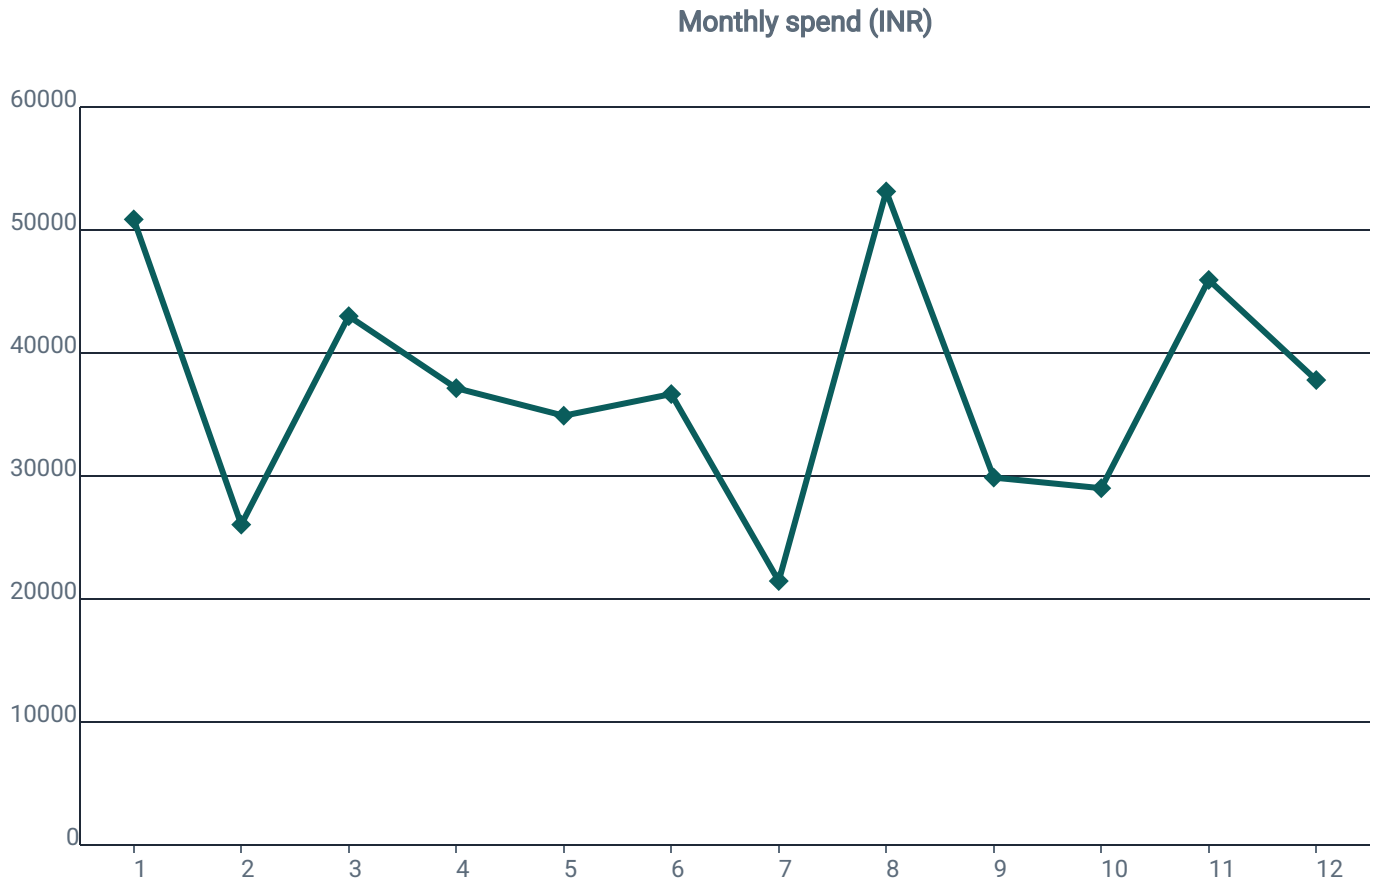

of Food spend is a need

48%

of Education spend is a want

Wants are highest in Education, Shopping and Entertainment, where roughly half the spend is discretionary.

Spending peaks in August, dips in July

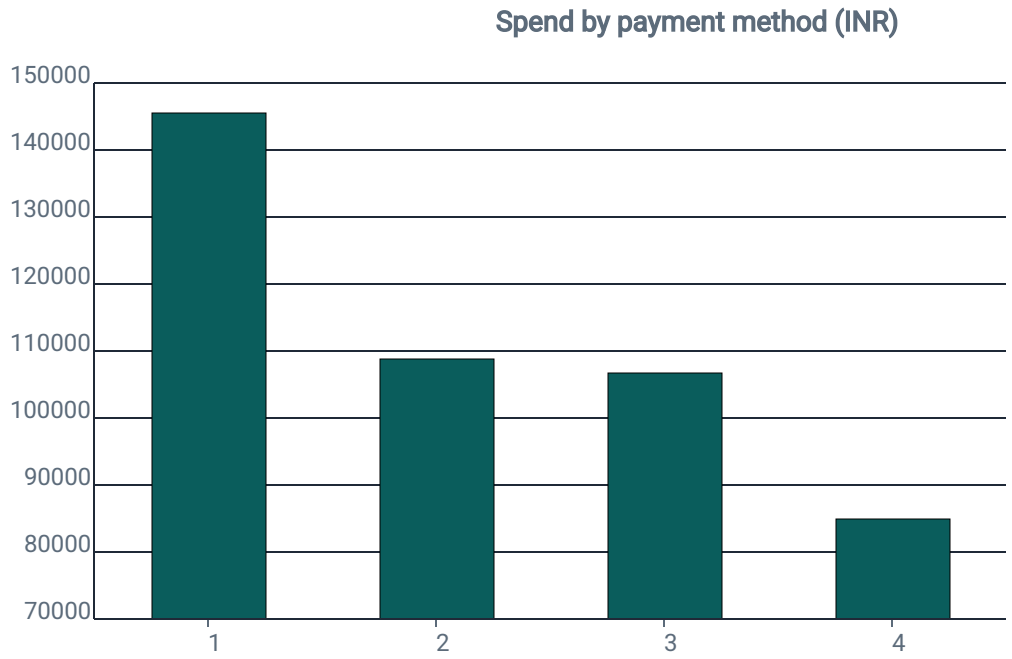

₹53,133

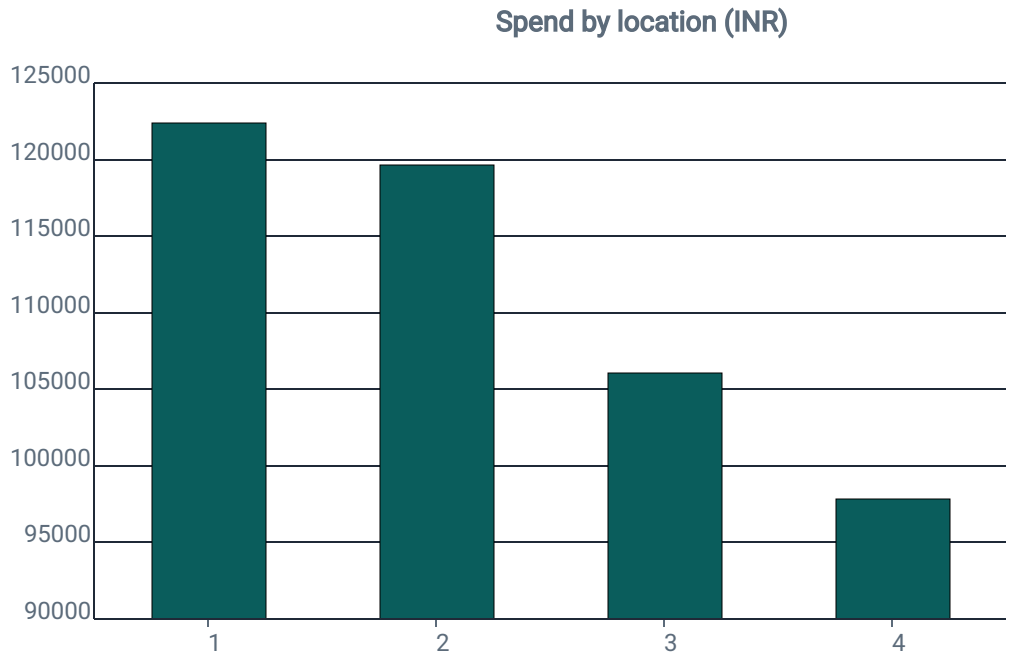

August, the highest month

₹21,459

July, the lowest, about 2.5× lower

UPI is the most-used payment method

UPI carries 32.6% of spendwhile credit cards account for only 19.0%. Spending is spread fairly evenly across places, with the hostel (27.4%) and outside (26.8%) slightly ahead.

What this means for students

1

Watch Food first

It is the largest line at 27.6% of spend; groceries and snacks alone top ₹35,000 each.

2

Trim the wants

₹167,753 (37.6%) is discretionary, with the most room in Shopping and Entertainment.

3

Plan for peak months

August and January run more than twice the lowest month, so set aside a buffer for them.
